Company Profile

Over View

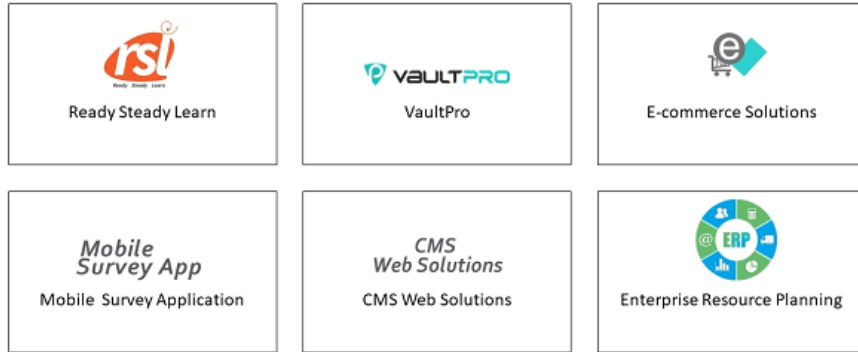

- Ceymplon (pvt) Ltd Software and Recruitment Service Provider offering facilities on onshore and offshore software development services as well as a team which provides the best resource consulting services in sourcing its client the best Talent needed.
- Ceymplon (Pvt) Ltd, one of the jeylabs Group of Companies and a pioneer software development and outsourcing company that has been providing solutions to businesses both nationally and internationally for the last ten years. They also focus on empowering youth in their working areas to enable them to participate actively in the national development process, and implementing various social activities under our Corporate Social Responsibility (CSR).

History

- Ceymplon (Pvt) Ltd was founded as a subsidiary of jeylabs (Pty) Ltd in Sri Lanka in 2012. jeylabs was established in the suburb of Epping in Victoria, in the middle of GFC 2009 crisis and during the Sat 7 Feb 2009 Bushfires in Melbourne, Australia.
- Ceymplon team was expanded to Jaffna in 2014 with the establishment of the Northern Ceymplon IT Hub, the first software company to set up a full-fledged software development team in Jaffna with a vision to enhance the competency of the regional youths, and to attract the foreign investments.
